The Mansfield Foundation is a nonprofit organization dedicated to fostering understanding and cooperation between the United States and the peoples and nations of Asia. This lecture series features Mansfield Fellows as speakers, who provide insights into current developments in the United States and worldwide.

Through lectures, guest talks, and discussions, students will learn about internationalization, viewpoints and real-time information from the United States and around the world, global career paths, and the realities of working in international environments. Special attention is given to international affairs and the role of the United States government in shaping global issues.
