

International Joint Education Program for Science and Technology (IJEP)

Registration of classes and research in the Graduate School of Science and Technology

<Registration>

1. For registration of classes and research you need to register through a computer registration system, SOSEKI.
2. Consult with your supervisor about which subjects you should take.
3. The deadline of the registration for this semester is
April 19 (Wed), 2023

<Course requirements>

※ Master's course

With the instruction of their supervisors, students are required to take at least 31 credits according to the regulation of each department (senkou). If the students belong to IJEP, they must take additional 4 credits from the required classes of IJEP shown below.

Required classes of IJEP

- | | |
|---|-----------|
| 1. English for Science and Technology I
(Spring Semester) | 2 credits |
| 2. Current Science and Technology in Japan I
(Fall Semester) | 2 credits |

※ Doctoral course

With the instruction of their supervisors, students are required to take at least 12 credits according to the regulation of each department (senkou). If the students belong to IJEP, they must take additional 4 credits from the required classes of IJEP shown below. In case students continued from Master's course of IJEP, they are required to take only "Current Science and Technology in Japan II"

Required classes of IJEP

- | | |
|--|-----------|
| 1. English for Science and Technology II
(Spring Semester) | 2 credits |
| 2. Current Science and Technology in Japan II
(Fall Semester) | 2 credits |
